

## Massachusetts General Hospital: Insurance Plans Accepted

Updated March 16, 2015

### Please Note:

**You should always check with your own health insurance plan before getting care to make sure you understand your covered benefits and costs.**

Many insurance plans are now considered “tiered” plans, and have different levels of costs depending on where you go for care. The information below should be used as a reference, but it is important that you check with your own health insurance plan to see what level of coverage you will receive at a specific hospital. Even if you see your insurance plan listed here, additional referrals or authorizations may be required. Some services may not be covered by your insurance coverage at every location. The level of coverage provided to you is determined by your insurer.

Also, many health insurance plans may use other companies to cover certain services such as behavioral health (mental health) or transplant related services. Please contact your health insurance plan or employer for your specific questions.

If your health insurance plan or product is not listed, please contact your insurance plan to find out for sure what coverage may or may not be available to you.
