

# Community Benefit at Partners HealthCare

- In 2007, Medicaid payments to Partners hospitals covered only 71% of the actual cost of providing care to Medicaid patients. The remaining 29% of these costs had to be shifted to other payers.

- Partners provided \$135M in research subsidies in 2007 to support groundbreaking work in a number of different areas, including:
  - Alzheimer’s disease
  - Cancer
  - Cardiovascular disease
  - Diabetes
