

# DISRUPTIVE BEHAVIOR

## Text Button A

### LEARNING OBJECTIVES

After working through this program, you should be able to:

- Define disruptive behavior
- Describe the impact of disruptive behavior on the medical environment and the health care team
- Recognize the signs and symptoms of disruptive behavior
- Outline strategies to identify, intervene, and manage disruptive behavior
- Access resources to develop effective tools and responses (e.g. the institution's human resources unit or equity/harassment office, or the state's physicians health program)
